Zloadr — Advisory

Block6 has advised and provided consulting services to zloadr. This includes internal smart contract code auditing and blockchain related security audits.

Our latest venture with zloadr includes the deployment and integration of their Crypt2 NFT contracts on [opensea](#) and their [website](#)

VABVA — Founder

[VABVA](#) is a location powered E-commerce network for the [waste and construction](#) industry. It seeks to eventually allow clients to leverage the power of the blockchain as an alternative financing option

Teams Managed

Blockchain & Network

A precise overview of the blockchains, networks and libraries we've integrated. This illustration includes a mixture of L1/L2 solutions such as Arbitrum.

Technology

If you haven't noticed already, we're passionate about Node and Linux. At Block6, "if it can't integrate with Node.js, we're not using it"

Marketing

 Ask us about programmatic SEO, or how you can leverage big data to increase your community.

SEO

ICO

Content
marketing

Ask me how we help Populous raise over 10,000,000 USD during their ICO?

Ask me how we leverage geo-location based content marketing to gain 1.71 Million Impression for VABVA over 6 Months?
